

K-LOVE has served me for more than 10 years. We are a military family and have been able to be blessed with the encouraging words and music that K-LOVE broadcasts every day. Whether we were driving cross-country or whether we were overseas in the Azores, we were able to listen to K-LOVE both on the radio and via the internet. This station is a blessing to those of us who need to be reminded of God's love. If the station is removed, I believe that many individuals (and families) will be lost. This station is a service to the community, saved or unsaved, as even the unsaved has "happended" across the station by mistake and have been changed by what was being said or played.
